

DUROMETER STAND THS-210/01 TM

Stand for THS-210

- Operating stand for THS-210
- Convenient and accurate way for repetitive testing of hardness
- Eliminates human error
- Measured values are more accurate and reliable
- Hardness of rubber and plastics can be measured

Technical specifications

Durometer types	THS-210
Max sample thickness	80mm
Max diameter of working table	ø 116mm
Max lifting displacement	24mm
Max touch distance between pressure foot and working table	0.05mm
Dimensions	420mm×200mm×170mm
Weight	22kg
